

Corporate Culcha eLearning

eLearning allows your team to access training from any location at any time of the day or night. Whether participants are together in a classroom, or scattered all over the country in different time zones, they can still tap into the same course materials at a time that's convenient to them.

eLearning

eLearning allows your team to access training from any location at any time of the day or night. Whether participants are together in a classroom, or scattered all over the country in different time zones, they can still tap into the same course materials at a time that's convenient to them.

Corporate Culcha's Cultural Capability eLearning program has been successfully integrated into the workplaces of many of Australia's largest companies, government departments and organisations.

Cultural Capability eLearning program

Cultural Capability eLearning program

Our package, provides the first steps to Cultural Awareness and Competency and is the core component of a workplace blended learning solution.

We deliver examples of competency based practice via case studies, video interviews and role plays to support employment, engagement, procurement, and customer service skill development.

Our program leaves participants with practical tools and skills they can use immediately in their day to day responsibilities, rather than just information.

Our flexible program design allows for customisation and branding to meet the needs of your organisation, with your internal actions and initiatives socialised and embedded within program if required.

Access training from any location at any time of the day

Key Features of Corporate Culcha's eLearning program

Available as a once-off perpetual license or by subscription (per user).

Two stream options:

1. For general staff.
2. For staff who manage, supervise or mentor Indigenous trainees or conduct community engagement activities.

Provides the first steps to Cultural Awareness and Cultural Competency within the workplace without impinging on Traditional Owners local awareness.

Examples of competency based practice via case studies, video interviews and role plays.

Specific cultural and historical information, behaviours, issues and how these relate to employment, retention and customer service.

Torres Strait Islander content weaved throughout with options to access.

Options to view content on Remote Community practices and traditions

Leaves user with tools and skills they can use immediately in their day-to-day responsibilities.

Available for use either on your organisation's LMS or via our platform.

Narrations by Ernie Dingo.

Branded to meet the needs of your organisation.

Client's internal actions and initiatives socialised and embedded within program, for example RAP initiatives, a CEO message, Our Actions etc.

Modules

It will take approximately 60 minutes to complete all modules. There are opportunities for exploration which may increase the duration by no longer than 10 minutes.

Historical perspectives (Our History)

Cultural perspectives (Our Culture)

Putting into Practice (Our Future)

Maintenance Option

Our eLearning program has been developed with the flexibility to grow and adapt to a client's evolving initiatives, whilst remaining current with external statistical data, information, role plays and technology via our Maintenance Option, or via fee-for-service.

Inclusions in the Maintenance Option

Maintenance covers the implementation of updates arising from the following:

- Changes in relevant legislation
- Update of content with more appropriate/effective content
- Expansion of the courseware to cover new/additional points
- Any additional comments / edits after the course is delivered and signed-off
- Updated organisational information as provided by the client.
